

PROMETHEUS RADIO

August 8, 2004 at 5PM at AS220

Hosted by BSR Radio and Providence Community Radio

Pete Tridish from the Prometheus Radio Project (with Sakura Saunders) will be at AS220 for an open public meeting about media reform, Low Power FM radio, and grassroots media organizing. This forum will address national issues and local opportunities here in Providence. Want to build a positive non-commercial radio station here in Rhode Island, or help give others across the country a chance to do the same? This is the place to start.
